

Quarterly Impact Brief

GSC's quarterly Impact Brief keeps stakeholders informed on key wins and regional progress.

Q1 2026 brought real momentum — statewide awards, workforce innovation, a packed StageWorks, a first-of-its-kind workforce roundtable, and the launch of a regional economic development district. Here's what we accomplished together.

Greater St. Cloud Region Earns Three EDAM Statewide Awards

In January, our region took home three statewide honors from the Economic Development Association of Minnesota.

Congratulations to this year's honorees:

- Economic Developer of the Year — Leslie Dingmann, GSC
- Emerging Professional of the Year — Brian Fleming, Sherburne County EDA
- Project of the Year (Greater MN) — BriAnne & Craig Hern, The House Food & Tap, St. Joseph

Quarterly Impact Brief

StageWorks interior

StageWorks: A Full House

Since launching in May 2025, StageWorks has quickly become a cornerstone of the region's entrepreneurial ecosystem. As of January 2026, all private offices are fully occupied with only a limited number of cubicles remaining — a strong early signal that the shared workspace model is meeting a real market need in Central Minnesota.

GSC Secures \$180,000 to Expand Entrepreneurial Ecosystem

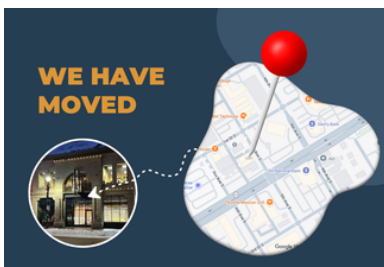

GSC was awarded \$180,000 through DEED's Small Business Assistance Partnership Grant — part of a coalition led by Initiative Foundation — to expand entrepreneur support including 1:1 coaching, StageWorks programming, startup memberships, ILT Academy scholarships, and a regional Pitch Competition.

GSC Hosts FAME USA Exploratory Roundtable

GSC convened 20+ regional employers to explore bringing FAME USA to Central Minnesota — a nationally recognized earn-and-learn apprenticeship model that would be Minnesota's first. If advanced, GSC would serve as chapter administrator while employers lead — grounding the program in real industry needs.

GSC Partners in Region 7W Economic Development District

The Region 7W Economic Development District has formally organized and held its first board meeting — a major regional milestone. Bringing together county commissioners and partners including Initiative Foundation, Benton Economic Partnership, and GSC, the board is already identifying priorities and building frameworks. If awarded federal designation, it would be the first time in 40+ years our region has held this status, unlocking new capacity for infrastructure and community development. Thank you to Initiative Foundation for their foundational leadership.
